

Alien Formidability Distribution (tos/tas)

This page is concerned with aliens of tos and tas. It explores the interdependence of parameters: formidability, alignment (wrt. the Federation), conservation status, and cumulative significance.

The size of an alien name indicates their cumulative significance in the show, and the color their conservation status. In TOS/TAS the majority of aliens are at or somewhat above the Federation in capabilities. However, a pattern among endangered and extinct aliens is discernable: The overpowering category appears to be a perilous one!
